WHEREAS, a design-build contract, as defined in the Act, is a contract which is subject to qualification-based selection between a political subdivision and a design-builder to furnish (a) architectural, engineering, and related design services for a project pursuant to the act and (b) labor, materials, supplies, equipment, and construction services for a project pursuant to the act;

WHEREAS, the Act requires that the governing body of a political subdivision, prior to adopting policies for entering into a design-build contract, to adopt a resolution selecting the design-build contract delivery system provided under the Act, and such resolution must be adopted by an affirmative vote of at least two-thirds of the governing body; and

ATTACHMENT-REVISED PAYMENT IN LIEU OF MEDICAL INSURANCE

Qualified employee who are eligible to receive individual health insurance coverage as an employee benefit may elect a cash payment of \$500 per month in lieu of their individual health and dental insurance coverage. To be eligible for this payment, the employee must be eligible for the individual health and dental coverage offered to a county employee and must provide proof of qualified alternate insurance coverage to the County Clerk at the time of opting out of the County's group insurance plan. Should the employee discontinue or no longer be eligible for the alternate insurance coverage said employee must immediately notify the County Clerk of the same. An employee may not opt in to the County's group plan until the next open enrollment period unless allowed by Group Plan regulations. In order to remain eligible for the payment in lieu of medical insurance benefit, proof of qualified alternate coverage must be provided to the Clerk of the County every year during open enrollment for the group plan. The number of employees eligible for this benefit is contingent upon the County's group insurance plan participation requirements. If the number of employees requesting to opt out of the County's group insurance plan exceeds the maximum number of employees allowed by the group provider, the County reserves the right to limit the number of employees eligible for this benefit on a first requested basis. Butler County reserves its right to discontinue or reduce this benefit at any time.

Payment in Lieu of Insurance/Possible Action

Discussion was held regarding the amount that is paid to an employee who opts to take the payment in lieu of medical insurance. FINDINGS OF FACT IN SUPPORT OF DENIAL OF BUTLER COUNTY LANDFILL, INC.'S LOCAL SITING APPROVAL APPLICATION

The Butler County Board of Supervisors ("Supervisors") hereby adopt the following findings of fact in support of its unanimous decision to deny Butler County Landfill, Inc.'s ("Applicant") Local Siting Approval Application. A true and correct copy of the denial is attached hereto as Exhibit A and contains the procedural background which is incorporated herein by this reference.

After consideration of the testimony and exhibits offered at the public hearing and the exhibits received during the public comment period the Supervisors found that Applicant failed to satisfy its burden to prove that the landfill expansion met three of the criteria set forth by Neb. Rev. Stat. Sec. 13-1703. A majority of the Supervisors found that Applicant failed to meet its burden of proof with respect to the criteria found in subparts (1) and (5) of that statute. The Supervisors unanimously found that the Applicant failed to meet its burden of proof with respect to the criteria found at subpart (2) of that statute.

After consideration of the testimony and exhibits offered at the public hearing and the exhibits received during the public comment period the Supervisors found that Applicant satisfied its burden to prove that the landfill expansion met three of the criteria set forth on Neb. Rev. Stat. § 13-1703. The Supervisors unanimously found that Applicant met its burden of proof with respect to criteria found at subparts (3), (4) and (6) of that statute.

The reasons for the decisions reached by the Supervisors on each criteria are set forth below.

1. Criteria 1

Neb. Rev. Stat. § 13-1703(1) requires an applicant to demonstrate:

- (1) The solid waste disposal area or solid waste processing facility is necessary to accommodate the solid waste management needs of the area which the solid waste disposal area or solid waste processing facility is intended to serve.

A majority of the Supervisors found that Applicant failed to demonstrate that the landfill expansion is necessary. This decision is based on the following:

- A. The landfill has adequate capacity to meet the needs of Butler County residents. The volume of solid waste generated by Butler County residents is a small percentage (i.e. less than 2%) of the total volume of solid waste disposed of at the landfill. A majority (over 67%) of the waste being currently accepted by the Landfill comes from the cities of Omaha, Blair, and Council Bluffs, IA. (E4)

Butler County Board Minutes

B. Sarpy County owns and operates a landfill near Springfield, Nebraska. Sarpy County will close this landfill in the near future. Several years prior to Applicant filing this application, Applicant's business affiliate (Waste Connections of Nebraska, Inc.) and Sarpy County entered into an agreement in March 2011 for solid waste disposal. Under this agreement, Applicant's affiliate has constructed and is operating a solid waste transfer station at the Sarpy County landfill, that as of a certain date Applicant's affiliate will deliver all solid waste collected by it in Sarpy County to this transfer station, and that such solid waste will be disposed of at Applicant's landfill or other landfills owned and operated by Applicant's affiliate and approved by Sarpy County. Applicant's affiliate will pay Sarpy County a host fee of a minimum of \$577,500 per year. In addition, Applicant is providing Sarpy County with a volume discount on the fees for disposing solid waste at Applicant's landfill. (E45, App. C; Pub. Tran. 60:18-61:7) Butler County is not a party to this contract.

C. Butler County does not have an interlocal agreement, or other agreement, with any third party outside of Butler County (i.e. including any business, municipality, county, and Sarpy County in particular) that requires it to provide solid waste management services or a landfill for disposal for any areas outside Butler County. (E1)

D. Butler County has alternatives for its waste in the event that the landfill ceases operation:

- i. There is evidence that there are alternatives for some or all of the waste generated by Applicant's self-defined Business Area, including landfills located closer to the Applicant's major waste sources such as Pheasant Hill Landfill in Douglas County and Iowa Waste Systems in Malvern, IA. (E45 Sec. 2.5, Fig. 2.4, E7) These major waste sources and their volume of waste disposal at the landfill, are as follows:
 - Omaha – 246,200 tons (45.6% of total);
 - Blair – 57,100 tons (10.6% of total);

Butler County Board Minutes

- Council Bluffs – 60,900 tons (11.3% of the total). (E4)

The Local Siting Approval Application does not appear to include Council Bluffs and/or Iowa as part of Applicant's self-defined Business Area. (E45 Sec. 2.2, Fig. 2.2) These major waste sources will include, in the near future, Sarpy County (anticipating tonnage of 200,000 tons). (E45, Fig. 2-2) The capacity at the Pheasant Hill Landfill in Douglas County is such that its estimated remaining life is 88 years. (E5, pg. S-3)

- ii. There is evidence that Douglas County can take the waste from Butler County and Applicant did not provide convincing evidence or testimony to contradict this alternative or show why it is not a viable alternative. (E2);
- iii. There is evidence that York County can accept waste from Butler County and Applicant did not provide convincing evidence or testimony to contradict this alternative or show why it is not a viable alternative. (E3);
- iv. The record demonstrates that there are potentially alternative landfills in Douglas County, York County, Mills County, IA, Grand Island, Beatrice, Northeast Nebraska Solid Waste Coalition Landfill, G&P Development, Loup Central, Lincoln Bluff Road Landfill, Kearney, and Hastings. (E45 Sec. 2.5, Fig. 2.2, E2, E3, E5, E7, E70) Applicant did not provide sufficient evidence to demonstrate that other landfills identified in the record were not adequate alternatives to accept some or all of the waste from either Butler County or the Business Area defined by Applicant in its application.

For these reasons, a majority of the Supervisors determined that the Applicant failed to demonstrate that the landfill expansion is necessary.

2. Criteria 2

Neb. Rev. Stat. Sec. 13-1703(2) requires an applicant to demonstrate:

(2) The solid waste disposal area or solid waste processing facility is designed, located, and proposed to be operated so that the public health, safety, and welfare will be protected. The applicant shall provide an evaluation of the potential for adverse health effects that could result from exposure to pollution, in any form, due to the proper, or improper construction, operation, or closure of the proposed solid waste disposal area or solid waste processing facility.

The Supervisors unanimously determined that Applicant failed to satisfy criteria two.

This decision is based on the following:

Butler County Board Minutes

A. The Applicant failed to adequately provide an evaluation of the potential for adverse health effects that could result from the exposure to pollution due to the improper construction, operation, or closure of the proposed solid waste disposal area.

- i. Applicant provided evidence about the landfill's historical compliance with environmental regulatory requirements, safeguards and safe operation of the proposed expansion of the facility if properly constructed, operated and closed. (E45 pgs. 18 – 21, App. G, H, Pub. Tran. 22:8-23:12, 38:17-43:5);
- ii. Applicant did not include any evaluation of potential adverse health impacts that could result from improper construction, operation or closure;
- iii. Applicant provided testimony that the facility receives 100 tons of fly ash every day. (E45, pg. 7; Pub. Tran. 62:20-25) Applicant testified that it has conducted health and safety evaluations of fly ash. (Pub. Tran. 59:8-19). Applicant failed to provide this or any other evaluation regarding the potential adverse health impacts of fly ash on site or to the surrounding area;
- iv. There was testimony of dust and trash blowing offsite from the current landfill operation and truck traffic to and from the site; (Pub. Tran. 110, 114-117, 122-124, 142-145, 163-167, Ex. 19, 46-49, 52-54)
- v. Applicant provided evidence of its current groundwater monitoring activities, but failed to provide an evaluation regarding the potential adverse health impacts of possible contamination of ground water or surface water. (Exs. 12, 13, 43)

For these reasons, the Supervisors unanimously determined that the Applicant failed to satisfy criteria 2.

3. Criteria 3

Neb. Rev. Stat. Sec. 13-1703(3) requires an applicant to demonstrate:

- (3) The solid waste disposal area or solid waste processing facility is located so as to minimize incompatibility with the character of the surrounding area and to minimize the effect on the value of the surrounding property. The city council, village board, or county board shall consider the advice of the appropriate planning commission regarding the application;

Butler County Board Minutes

- A. The Landfill is located in a rural area of Butler County. (E45, Sec. 1.2, Fig. 1-1, Sec. 4.2)
- B. The Landfill has been operating as a landfill in that location since 1986. (E45, Sec. 1.2)
- C. There was no evidence offered regarding the effect of the expansion on the value of the surrounding property.
- D. The expansion would minimally impact the surrounding area because the surrounding area is already adjacent to an existing landfill facility.
- E. Butler County does not have a Planning Commission or similar body to provide advice regarding the application.

For these reasons, the Supervisors unanimously determined that the Applicant satisfied Criteria 3.

4. Criteria 4

Neb. Rev. Stat. Sec. 13-1703(4) requires an applicant to demonstrate:

- (4) The plan of operations for the solid waste disposal area or solid waste processing facility is designed to minimize the danger to the surrounding area from fire, spills, or other operational accidents;

- A. Applicant provided evidence about the landfill's historical compliance with environmental regulatory requirements, safeguards and safe operation of the proposed expansion of the facility if properly constructed, operated and closed. (E45 pgs. 18 – 21, App. G, H, Pub. Tran. 22:8-23:12, 38:17-43:5)
- B. Applicant provided information regarding its response measures in the event of operational accidents. (E45, App. H)

Butler County Board Minutes

C. There was no evidence or testimony refuting Applicant's position that its plan of operations for the landfill expansion is designed to minimize the danger to the surrounding area from fire, spill, or other operations accidents.

For these reasons, the Supervisors unanimously determined that the Applicant satisfied Criteria 4.

5. Criteria 5

Neb. Rev. Stat. Sec. 13-1703(5) requires an applicant to demonstrate:

(5) The traffic patterns to or from the solid waste disposal area or solid waste processing facility are designed to minimize the impact on existing traffic flows.

A majority of the Supervisors found that Applicant failed to demonstrate that the expansion of the landfill was designed to minimize the impact on existing traffic flows. The decision is based on the following:

A. There was testimony that the increase in volume of waste disposed of at the landfill, particularly from waste from Sarpy County, would add up to 25 additional semi-truck loads per day. (Pub. Tran. 51:10-13)

B. There was no analysis of the impact this additional truck traffic would have on Q Road and traffic flows on Q Road. (Pub. Tran. 159-160)

C. There was testimony that the conditions of R Road are dangerous, that citizens avoid taking "dump road" and instead find alternative routes, and that R Road conditions and/or landfill traffic have resulted in damage to vehicles. These conditions and wear on Road R are caused by the truck traffic to and from the landfill. (Pub. Tran. 111, 115, 118-122, 130-132, 142, Ex. 46-49, 59, 64)

D. Applicant did not provide sufficient evidence regarding the actual traffic flows to satisfy its burden under Criteria 5. (E45, App. J)

Butler County Board Minutes

For these reasons, a majority of the Supervisors determined that the Applicant failed to satisfy criteria 5.

6. Criteria 6

Neb. Rev. Stat. Sec. 13-1703(6) requires an applicant to demonstrate:

(6) Information regarding the previous operating experience of a private agency applicant and its subsidiaries or parent corporation in the area of solid waste management or related activities are made available to the city council, village board, or county board. If a corporation, a parent company or subsidiary thereof, or any officer or board member of the corporation or the parent company or subsidiary applying for approval has been convicted of a felony within ten years of the date the application is filed, site approval shall not be granted.

A. Applicant provided evidence about the landfill's historical compliance with environmental regulatory requirements, safeguards and safe operation of the proposed expansion of the facility if properly constructed, operated and closed. (E45 pgs. 18 – 21, 28, App. G, H, Pub. Tran. 22:8-23:12, 38:17-43:5)

B. Applicant provided undisputed evidence that it had not been convicted of a felony within ten years of the date of the application. (E45, pg. 28)

For these reasons, the Supervisors unanimously determined that the Applicant satisfied Criteria 6.
